- Nestling between millennial glaciers and carved mountains, and considered to be “**the crown of Arctic Norway**”, **Spitsbergen** is a place that never sees the night.
- Your ship will take you closer to this fascinating archipelago and, more particularly, the **Hornsund fjord**.
- Considered to be Svalbard's southernmost fjord, it is especially reputed to be its most stunning: at the end of its vast bay, 8 glaciers slowly make their way down to the sea before giving way to the many icebergs elegantly drifting along its cold and mysterious waters.

Dinner Breakfast Lunch

Day 4 :- BELLSUND

- You will head to the **Bellsund fjord** to follow in the footsteps of the first explorers who came from the Norwegian coast, or those of the many fur traders seeking game and trophies.
- Boasting an astonishingly rich wildlife, the arms of the fjord separate to form two lush valleys.
- Give free rein to your imagination in the heart of this majestic natural environment where time seems to stand still.

Dinner Breakfast Lunch

Day 5 :- SAILING TOWARD THE ICE FLOES

- Your captain will sail right up to the limit of the ice, to the edge of the ice floe.
- Weather conditions and state of the ice allowing, you will be able to go out in a **Zodiac®** dinghy for a unique experience in the middle of these floating slabs of ice.
- In addition to this grandiose journey through the middle of these floes with their cut and blue-tinged edges, sometimes over 2 metres thick, it is also often an opportunity to see a particular kind of fauna, totally dependent on the **ice floe: birds, seals and polar bears**.

Dinner Breakfast Lunch

Day 6 :- MAKEOYANE - MONACO GLACIER

- Makeoyane is a small archipelago in the heart of the Woodfjorden. It is located at the intersection between the **Bockfjorden** and the **Liefdefjorden**.
- As you sail around these little islands, you will be able to observe **Arctic terns** whose eggs sometimes attract polar bears.
- Later continue sailing to **Monaco Glacier**. It stands as an impenetrable, blue-tinged jagged wall, the last glacier before reaching the latitude of **80° North**.
- And to make the magical landscape even more perfect, you might be lucky enough to spot bears and whales, as these two animals have a special fondness for this area.

Dinner Breakfast Lunch

Day 7 :- RAUDFJORDEN - SMEERENBURG

- **Raudfjorden** means “red fjord”, from the colour of the sandstone of the surrounding mountains.
- Along the west coast of this 20 km fjord, dissected by many shallow bays, you will be able to admire some of Spitsbergen’s most spectacular ice formations.
- Next set sail to **Smeerenburg**, located at the far north-west of the Svalbard archipelago, at the intersection of oceanic and Arctic influences. Smeerenburg is a former Dutch whaling colony on the southern part of Amsterdam Island and one of Spitsbergen’s most important archaeological sites.
- At the height of the whaling activity, 200 men worked here and several are buried here.

Dinner Breakfast Lunch

Day 8 :- NY-ALESUND - KONGSFJORDEN

- During your cruise, discover **Ny-Ålesund**, a former mining town that has been transformed into a scientific base.
- Don’t miss a visit to the museum and its famous post office, considered to be the most northerly in the world!.
- Next continue journey to **Kongsfjorden**. Here, the snow-capped mountains are reflected in the water where superb icebergs tend to outdo each other in their beauty, a delight for photographers. Seals, reindeer, barnacle geese and black guillemots frequent the places that have a unique atmosphere.
- Once you arrive at the end of the fjord, admire the **Kongsbreen (glacier of the King)** and its three characteristic rocky points, which take their names from three Scandinavian countries: **Svea (Sweden), Dana (Denmark) and Nora (Norway).**

Dinner Breakfast Lunch
